Stained glass workers in search of authentic Victorian- and Edwardian-era designs need look no further. This convenient and affordable CD-ROM and book set contains a remarkable array of designs that once adorned a multitude of windows, transoms, sidelights, and other architectural elements of the nineteenth and early-twentieth centuries. Meticulously rendered from period photographs, the charming motifs include floral and foliated designs, an amazing variety of geometrics, transitional designs showing the influence of Art Nouveau, and much more.
