Have you ever wondered what the wealthy and successful people are doing to make it to the pinnacle of society? Have you ever contemplated why someone else is a CEO and you are not? Have you ever thought, What are they doing right that I am not? The truth is there's nothing magical about being successful. You just have to be committed to learning from those around you that are successful. The difficult thing is not everyone has a personal mentor they can call on during the middle of the workday to get counseling on how to build wealth. This book takes years of my experiences, my learning, and the mentorship I have received from wealthy individuals and presents it in an easily digestible format that is candid and to the point. The book is segmented into three basic categories: wealth building lessons, real estate tactics, and utilizing Six Sigma. In this book I share with you not only the basic foundation of how hundreds of my acquaintances have become wealthy and now lead successful lives, but I also give specific examples of what those successful people did to vastly increase their wealth. This item ships from La Vergne, TN. Paperback.
