Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Choose the subject of your blog with care and consideration. Your blog should mirror your passion and knowledge on the subject. Identify whether you will be able to consistently post on the subject. Some topics that are search engine friendly and that never really die out are technology blogs, product related blogs, city concentric blogs and money making blogs. There is always news to give your readers and also there are a lot of points to discuss on. More challenging blogs to write are blogs on thoughts, ideas, short stories, poems. In these blogs you have to be able to provide self- driven original content whereas in the previous kind there are other websites from where you can draw inspiration and ideas. Decide what your blog is going to be about. Your blog can be about anything you want, like politics or romantic comedies or every little thing or anything else you want. It s a common misconception that blogs are just online diaries, or that every blogger is an aspiring Carrie Bradshaw. Untrue! Blogs can be a place where you write about what happened during the day, or what s going on in your life, but the topics and themes are endless. Your blog can consist of funny pictures of your cat. Or, may be, you just want to write about music? So post your own reviews.
