It also includes water-quality data for eight stations sampled at regular intervals, continuous temperature at seven stations, and continuous water quality at nine stations. Ground-water levels are published for 8 recording and 16 partial-record sites. Precipitation data at regular intervals are published for one site. Additional water data were collected at various sites not involved in the systematic data-collection program and are published as miscellaneous measurement and analyses. These data represent that part of the National Water Data System operated by the U.S. Geological Survey and cooperating State and Federal agencies in Kentucky.
