Excerpt: .for mathematics is the sum of the various words checked, after it has been multiplied by the factor of accuracy obtained in the last question; and similarly for English and history. Since this grade is made up of a considerable number of grades, whose reliability is given above, the reliability of the grade, before multiplication by the factor of accuracy, is appreciably greater than the reliability of the grading of each of the words, and is probably not less than .96 for mathematics and history, and not less than .92 for English. As given in the next section, the reliability of the factor of accuracy is about .95, so that the reliability of the grade for the question is close to .91 for mathematics and history and in the neighborhood of .87 for English. Question 10--Factor of Accuracy. To determine the accuracy of the pupil's estimate of his knowledge,...
