More specifically, they need The Skill. This book offers readers the chance to learn and apply a proven methodology for managing challenges such as personal change, new jobs, stretch assignments and global postings. Based on Les Woller's highly successful four-step process that has been applied effectively by thousands in businesses, governments, and in personal lives, The Skill is a method that fosters increased learning and adaptability. The lessons learned and detailed in this book evolved from Les 25 years of experience where he recognized that many struggled with times of change. A significant number operated on autopilot, where they behaved in unthinking, habitual ways to problems and opportunities. They quickly fell into comfortable, but ineffective routines. Over the years Les developed a simple methodology to help them switch off autopilot and begin to effectively adapt to situations. This book explains the four steps in the ARTT of The Skill, which people need to take - becoming more self-Aware, Reflecting on why they do what they do, Targeting situations and Trying new behaviors in these situations. This book is essential for individuals, teams and organizations who want to enhance their performance, accelerate their promotability and increase their potential. It is an easy to use process for anybody. As the marketplace becomes more competitive and complex, the winners will be those with the Skill who can learn and adapt.
